PCP WISE Stakeholder Observatory Group (SOG)

WHAT IS IT

The **Stakeholder Observatory Group** is a **network** within the PCP WISE community that brings together:

- **Followers:** organisations interested in project updates
- **Replicators:** potential future buyers

Members can follow **progress**, share **feedback**, and gain early access to **results**.

HOW TO CONTRIBUTE

- **Reading and reviewing** call documents and project reports to ensure alignment with ecosystem objectives on the Community of Practice of the PCP WISE project.
- **Providing input** on selected consortia applications after each phase to assess their relevance to the ecosystem.
- **Participating in SOG meetings** every 6 months and other relevant consortium events.
- **Disseminating and communicating** project updates and results through your organisation's channels.
